5 good reasons to choose natural essentials

1

We scour the world for the purest ingredients

Whilst vitamins and supplements often have similar names, the quality of the raw ingredients can vary widely. Rest assured the ingredients that go into all of our products are the best and nothing but the best.

2

Formulated by professional Nutritionists

Using the very latest research, our panel of expert Nutritionists develop carefully controlled formulas to give you optimum benefits.

3

Pharmaceutical standard products

All of our products are made to GMP standards (Good Manufacturing Practice) in factories that are licensed to make pharmaceutical products.

4

Unbeatable products and service

We're confident you'll love not only our products, but our service too. If for any reason we don't meet your expectations let us know and you'll receive a full refund – no questions asked.

5

Experts on hand to answer your queries

If you have any questions before you buy, simply call us **free** on **0800 014 8950**. We have friendly, trained nutritionists on hand to give you the answers you need.

CMO

'The Highest Quality'

CMO also known as Cetyl myristoleate is a dietary supplement that contains a concentrated extract of the fatty acid cerasomal-cis-9-acetyl-myristoleate from natural bovine source. CMO is not found in vegetable oils or other common foods but is found in low amounts in animal connective tissue. Dr. Sands' discovered this natural ingredient and wanted to share this amazing product with others. Natural Essentials have been the original seller of genuine CMO for thousands of customers for many years, that's why we have brought it back, due to popular demand. Try it today and your joints will thank you for it!

CMO Cream

This highly nourishing cream is scientifically proven to work and contains a combination (CMO, MSM, PPG-2, vitamin E, and Glycerin). Our soothing CMO cream can be rubbed into sore joints and muscles to relieve pain.

CMO cream contains mainly CMO and MSM. MSM is one of the most promising natural ingredients discovered this century for safely and effectively helping joints. The moisturizing CMO cream is an effective way of temporarily reducing pain and inflammation in localized areas.

This cream is light, non-greasy and easily absorbed into the skin.

Here at Natural Essentials, we are committed to developing natural solutions to improve your joint health and we are pleased to offer an excellent range of quality products for you to choose from.

Flex-ace Uno

Our New Flex-ace™ Uno contains the key ingredient Glucosamine Sulphate Sodium Chloride providing 1500mg of Glucosamine Sulphate. As our bodies age, the ability to produce some of the nutrients necessary for cartilage building, declines. Therefore, proper nourishment is essential for the health and mobility of our joints.

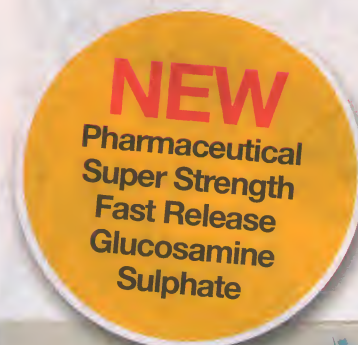

Glucosamine occurs naturally in the joints where it plays a role in the smooth working of joints and helps maintain connective tissues.

Flex-ace™ Uno delivers more Glucosamine Sulphate than most competitors, as well as the added benefit of being absorbed into the body easily. This formula is highly recommended by sports therapists, leading osteopaths and doctors. (GMP approved).

Our Flex-ace™ Uno sachets are specially formulated for:

- Customers requiring a higher amount of Glucosamine
- For those who have difficulty swallowing tablets or capsules
- Anyone with a history of joint problems

Each orange flavour sachet of powder can be dissolved into water and conveniently taken once-a-day.

£16.99

Glucosamine Sulphate 2KCl

As we get older, the connective tissue in the joints gradually degenerates due to continuous wear and tear.

Glucosamine is a major building block of complex proteins called glycosaminoglycan - the substance that forms an important part of the structure of healthy cartilage, tendons and ligaments.

Production of Glucosamine slows with age.

Our Glucosamine Sulphate comes in the 2KCl form, so you can be sure that you're taking the best form of glucosamine that money can buy. And as it's from Natural Essentials you can be assured that it's manufactured to the highest quality standards under Good Manufacturing Practices (GMP).

Omega 3 Fish Oil Hi-strength

Oily fish such as herring, mackerel, sardines, tuna and salmon contain essential fatty acids, EPA and DHA that cannot be produced naturally by the body. These fatty acids have been the subject of substantial media exposure claiming they have many other benefits too.

Realistically, few of us are able to incorporate in our diets the amount of oily fish necessary to provide us with sufficient levels of these fatty acids. Supplementing your diet with these easy-to-take capsules will do exactly this.

£6.99

Krill Oil

Krill Oil has much higher levels of omega 3 fatty acids containing higher (valuable) levels of EPA and DHA than other fish oils, therefore making it the most effective source of omega 3. Unlike ordinary fish oils, Krill Oil is also a natural source of astaxanthin (the pigment that gives krill their pink colour), one of the most potent and powerful anti-oxidants known today. Krill oil has no fishy aftertaste, causes no reflux and the omega 3 obtained from krill oil is the easiest form for the body to absorb.

Natural Essentials Superba Krill Oil is sourced from carefully selected fisheries in the Antarctic to ensure sustainable krill harvesting.

Our Krill Oil is specially formulated to:

- Maintain a healthy heart
- Maintain joints and bones
- Maintain a healthy immune system
- Maintain brain function

Garlic Delayed Release

Garlic has been used for thousands of years and is one of the most extensively studied herbs.

Including garlic as part of a healthy diet and lifestyle may be beneficial to the heart, circulation and immune system. When cloves are chewed, crushed or cut, they release a sulphur-bearing compound called allicin - the chemical that gives garlic its pungent taste and smell. It's the allicin that scientists have discovered is responsible for garlic's therapeutic qualities.

Each Garlic tablet provides the equivalent of 1 garlic bulb in one handy dose. Garlic delayed release tablets utilizes a unique system of control release of active allicin through enteric coating.

Ginkgo Biloba

Natural Essentials Ginkgo Biloba may help to maintain mental and physical performance and may also help to maintain healthy circulation and blood flow.

Ginkgo biloba are thought to have two groups of active constituents: the ginkgo flavone glycosides and the terpene lactones. Ginkgo flavone glycosides, which typically make up approximately 24% of the extract, are primarily responsible for ginkgo's antioxidant activity.

Each Natural Essentials Ginkgo Biloba tablet contains 120mg of concentrated extract, equivalent to 6000mg of whole ginkgo leaves. This extract is standardised to contain at least 24% of the main active components flavone glycosides.

Our Ginkgo Biloba is specially formulated to:

- Maintain Mental Performance
- Maintain Physical performance
- Maintain Circulation and blood flow

Digestive Complex

A natural herbal remedy

Our digestive enzymes are complex proteins that break down the food we eat, so that it can be absorbed by the body. Insufficient levels of digestive enzymes can lead to nutrient deficiencies and bacterial imbalances in the stomach which can also be caused by other factors such as stress, a poor diet and even overeating.

Our Digestive Complex can help your body to digest food more efficiently, allowing you to absorb more of the nutrients and may ease digestive discomfort.

This formulation contains a high concentration of the enzymes like Amylase, Papain, Bromelain, Lipase and Protease and also herbs like Ginger Extract, Peppermint Leaf which all have long been prized by herbalists for their great properties.

Eye Support

See the difference

Our unique formulation of highly effective antioxidant vitamins, minerals and Lutein

As we age, our eyes can start to deteriorate. With this in mind, our experts' have formulated this wonderful blend of nutrients that are known to nourish your eyes and assist the natural protective mechanisms that are at work to protect the tissues in your eyes, including your retinae.

Poor eye health can lead to damaged vision and other permanent eye problems. Lutein is a carotenoid found in fruits and vegetables such as spinach, kale, leafy greens, lettuce, leeks and peas. Lutein can only be obtained from food or vitamin supplements, as it cannot be manufactured by the body.

Each Eye Support capsule contains essential vitamins like Bilberry, Lutein, Lycopene, Beta Carotene extracts and vitamin C & E, which are particularly important for the maintenance of normal vision.

Our Eye Support may be of benefit to:

- Senior citizens who experience deteriorating eyesight
- People who wish to maintain good eye health
- People who have jobs that involve them spending long hours on the computer
- Those who have age-related macular degeneration (AMD) and other eye related conditions

Beetroot Extract

Superfood

Beetroot is a garden vegetable full of vitamins, minerals and antioxidants.

Recent research has demonstrated that the nitrate levels in beetroot juice may help contribute to maintenance of normal blood pressure. Beetroot naturally contains sodium, potassium, phosphorus, calcium, iodine, iron, copper, Vitamins B1, B2, B3, B6 and Vitamin C.

It is available as a healthy beetroot juice and now also in our easy-to-take concentrated beetroot capsules, enabling you to enjoy the nutritional benefits of this incredible 'superfood' and with its active ingredients every day.

Among beetroot's countless benefits, it is also notably used by many athletes during times of extreme training, when high energy levels and speedy recovery are required.

Our Natural Essentials Beetroot capsules contain natural organic iron. This iron is non-irritating and should not cause gastric problems, such as constipation.

This product is suitable for vegetarians and vegans

Our Beetroot Extract is specially formulated to:

- Provide a rich source of potent antioxidants
- Help maintain a healthy heart and circulation
- Provide a good source of bio-available vitamins and minerals
- May help lower blood pressure

RDI 2 capsules daily

£9.99

Vitamin D3

The Sunshine Vitamin

Vitamin D has been regularly in the news recently, as several research projects have highlighted its vital role in the maintenance of normal bone health.

Vitamin D is a fat-soluble vitamin which can either be ingested in food or manufactured by the body as a result of sunlight falling on the skin, hence its association with the name 'The Sunshine Vitamin'. Unfortunately, the sun does not shine all the time- and on some days, due to the weather or having an indoor job you will not receive any sun altogether – so your body may not be getting all of the Vitamin D it needs.

The lack of this necessary vitamin in the body could cause Vitamin D deficiency, which would affect many ailments in the body, that's why it's essential you get enough Vitamin D into your body each day.

Our Vitamin D3 is specially formulated to:

- Maintain healthy bones and teeth
- Help absorption and utilisation of calcium within the body
- Help support the immune system
- Maintain a healthy brain and heart

Multivitamins & Minerals

'Easy one-a-day tablets'

We all lead busy lives but even though our diet includes fruit and vegetables we often miss out on the essential nutrition.

Multivitamins and Minerals provide nutrients to supplement a healthy (or unhealthy) diet, however, keep in mind that even if you take a multivitamin you still need to have a balanced, healthy diet. Our bodies are indeed very complex machines, that have very specific requirements in order to function efficiently. When our bodies become short of certain nutrients, generally our bodies will not be able to function properly, (and) resulting in symptoms, be they physical or mental will occur. That's why it is so important to keep our bodies topped up with the right amounts of nutrients.

Our **NEW** Multivitamins & Minerals are an easy way of ensuring that you are receiving your essential RDA (recommended daily allowance) of vitamins and minerals.

PROSTA-UROL

Promotes good prostate health

After the age of forty, it can be helpful for men to take nutrients that support optimum prostate function to ease prostate discomfort.

This formulation was patented in 1997 by an American Urologist surgeon and has grown to be one of the UK's most popular prostate products.

Prosta-urol is scientifically proven to work, as shown in several clinical studies that this dietary supplement with its complete formula (plant extracts, vitamins, and minerals) relieves these inconveniences and improves urinary comfort

PROSTA-UROL has demonstrated in a clinical study (by DR Wheeler in 2007) a protective effect on the prostate confirmed by improving levels of specific markers.

Suitable for Vegetarians

Prosta-urol approach represents a 'multi-component' of all causes of changes in the prostate and helps to:

- Reduce the swelling of the prostate
- Improve overall urinary
- Maintain the proper operating condition of the prostate

Selenium with Vitamins, A, C and E

Selenium is an essential element in human nutrition and an antioxidant; the substance that defends the body against the harmful effects of free radicals.

We should obtain enough Selenium from the food that we eat, however Britain's soil is now considered 'selenium poor' due to intensive farming.

At Natural Essentials, our nutritionists have combined Selenium with Vitamins A, C & E to help a healthy immune system as well as healthy hair, skin, nails, teeth and gums, and to encourage normal growth.
